DEVELOPING COUNTERMEASURES

CSIS | CENTER FOR STRATEGIC & INTERNATIONAL STUDIES

ABOUT THE COMMISSION *The Commission on Strengthening America's Health Security* will draw upon the expertise and experience of Congress, past presidential administrations, industry, universities, foundations, and nongovernmental organizations to plan a way forward for U.S. national security interests. It will examine how the United States has responded to public health emergencies as well as how to respond to risks associated with rapid advances in biotechnology. It will also focus on issues related to protecting health workers and facilities across conflict zones in the Middle East and Africa and how to bolster global capacities in order to prevent an incident of pandemic disease.
